Markets and services

Food & Beverage

Stellar's Food & Beverage experts have focused on the food and beverage industry since its inception in 1985, designing and building processing facilities throughout the Western Hemisphere. The company is widely recognized as one of the industry leaders in this sector. Construction industry trade publication *Engineering News-Record* repeatedly recognizes Stellar as the number-one design-build firm serving food and beverage processors.

Commercial

Stellar's Commercial architects, engineers and construction professionals provide comprehensive design and construction services to the public and private sectors. The team has built award-winning facilities across the United States ranging from corporate headquarters and office complexes to automotive dealerships and military facilities.

Distribution & Logistics

Stellar's Distribution & Logistics experts provide architecture, engineering and construction services for public refrigerated warehouses and retail, wholesale and food service distribution facilities. In addition to new facility construction, Stellar also provides services for expansions and renovations.

Refrigeration Services

Stellar's Refrigeration Services is one of the leading refrigeration contractors in the world for industrial ammonia, CO₂, and other alternative refrigeration systems. The team designs, constructs and delivers high-quality packaged refrigeration units and operates a network of refrigeration and parts locations to serve a range of industries.

Thermal Construction Services

Stellar's Thermal Construction Services experts design, install, maintain and repair insulated metal wall panels, ceiling and roof systems. Integrated teams of architects, engineers, construction managers,

superintendents and field technicians handle turnkey thermal project development – from the design phase through completion. With more than 125 professionals, Stellar’s Thermal Construction Services leads the industry in size, experience and expertise, and serves both external clients and Stellar’s construction teams.
